

# Project Almanac

## CB Journey Flowcharts

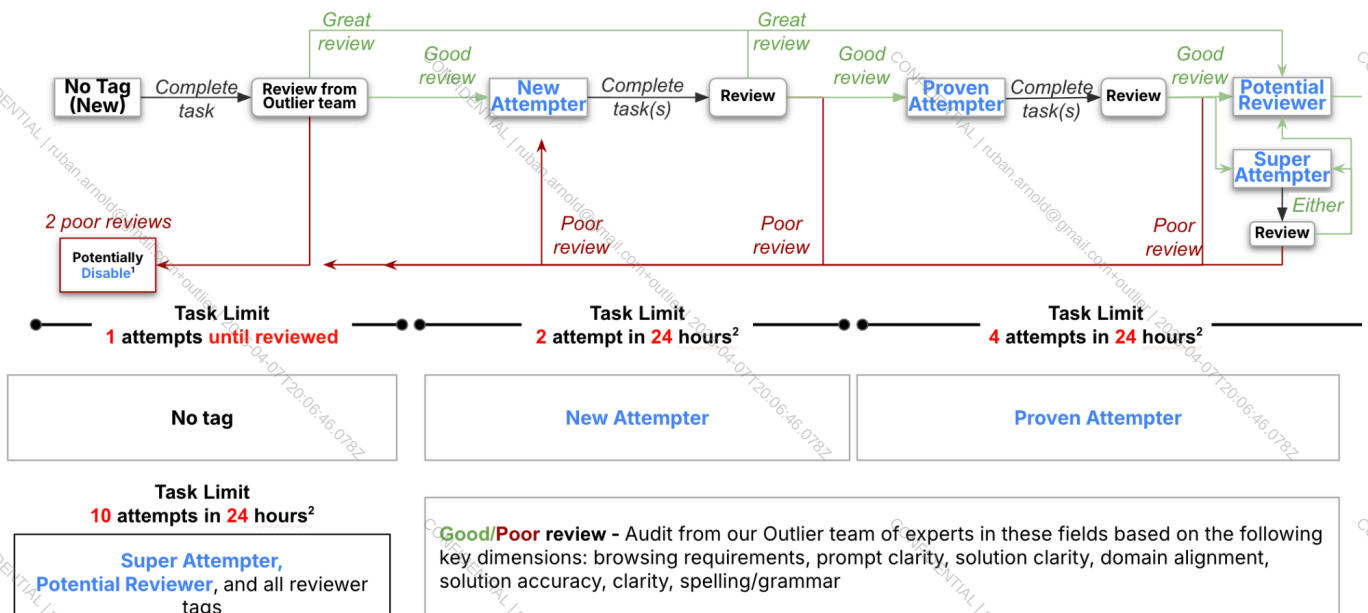

To ensure complete transparency with all contributors, we are sharing our contributor journey flowcharts. We anticipate this resource will answer many of your questions about tasking throttles and promotion paths.

The more quality work you put in, the **more tasking** is available to you, the **more permissions** you gain, and the **more support** you receive. We would love to see everyone here make it to Reviewer status and will work with you along the way. Thank you so much for all the work you do!

## Attempter

# Project Almanac

Attempter tag and task limit flowchart (as of 04/07/2026)

Confidential | ©2026 Outlier AI, Inc.

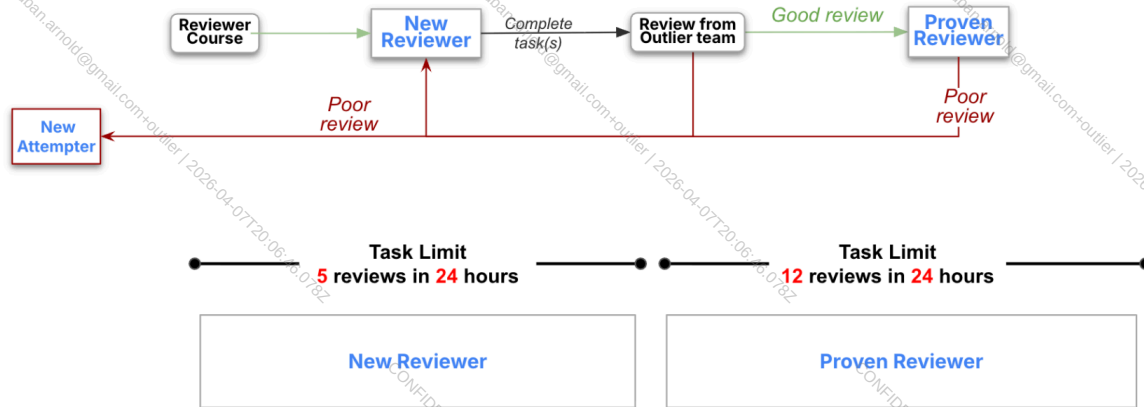

1. Disable on a case-by-case basis pending circumstances (e.g., timezone, emergency, etc.)  
2. Counting from last attempt and clock does not reset when a new tag is awarded

# Reviewer

## Project Almanac

Reviewer tag and throttle flowchart (as of 04/07/2026)

**Good/Poor review** - Audit from our Outlier team of experts in these fields based on **your reviews of others across** the following key dimensions: browsing requirements, prompt clarity, solution clarity, domain alignment, solution accuracy, clarity, spelling/grammar
